

CANCER CARE for ALL

Close to You

Jordan Valley Cancer Center is Utah's newest cancer facility for inpatient and outpatient care, specializing in prevention, treatment and helping patients thrive through every stage.

Our comprehensive treatment programs include leading technology such as the latest, most advanced Versa HD™ in Utah, medical and surgical oncology, brachytherapy, chemotherapy, physician-assisted robotic surgery, patient navigators and more. The Cancer Center's specialties include hemotologic services, breast, urological, gynecological, head, neck and gastrointestinal treatment. We have the space, technology and expertise needed to treat each patient completely—from diagnosis through treatment and on to survivorship.

**For more information and patient coordination questions,
call the Director of Oncology Services, Robin Anderson at 801-601-2310.**

Schedule Your Mammogram Online

Jordan Valley Medical Center is teaming up with iHeart Radio to help educate and prevent breast cancer in our community.

Breast cancer is the most common cancer in women in the United States. Follow these healthy lifestyle tips to help with cancer prevention:

Exercise regularly

Control your weight

Eat healthy foods

Perform a self-exam every month

**Schedule a yearly mammogram—
the best form of early detection**

A mammogram screening can help detect irregularities before you or a doctor can feel a lump. We encourage you to schedule an appointment today. Also, please take the opportunity to remind your mother, daughter and friends to schedule their yearly screening.

Go to UtahMammogram.com or press #250 on your mobile phone for more information and to schedule your mammogram today.
